4. Please provide any additional information about the information provided above:

In accordance with 511 IAC 15-1-1, the applicant must meet the following requirements to be admitted to the Transition to Teaching Program: (1) has earned a baccalaureate degree with a minimum GPA of 3.0 or 2.5 with 5 years of professional experience, and (2) pass the basic skills assessment (CASA) or meet the qualifications for a waiver. Beginning 2019-2020, the basic skills component of the program will be assessed with Praxis Core Academic Skills tests in reading, writing and math rather than CASA. Secondary candidates that want to certify in an area that is different from their undergraduate major are required to pass the content licensure test before admission to the program; otherwise content licensure exams must be passed prior to student teaching. Candidates must complete a background check and pass an interview to student teach.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2018-19. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Please provide any additional information about or descriptions of the supervised clinical experiences:

Elementary candidates have a literacy clinical experience mid-program. All candidates participate in a classroom management field experience prior to student teaching in the classroom in which they will complete their student teaching. Once this course and field experience conclude, candidates transition into the role of student teacher.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

White	23	11
Two or more races	0	0

Race/Ethnicity	Total Enrolled	Subset of Program Completers
No Race/Ethnicity Reported	0	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

Program Assurances

Note: This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
- ☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
- ☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☐ Yes
- ☐ No
- ☒ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
- ☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
- ☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

The program works closely with area superintendents, principals, and school corporation administration to respond to needs addressed by these constituents during stakeholder sessions provided by the department. Due to significant changes in leadership stemming from the restructuring of the School of Education into a Department of Teacher Education, a stakeholder meeting was not held this past year, but these will resume in the future. Our full-time faculty members maintain strong partnerships with area schools and our presence in the buildings promotes conversations leading to program improvement. Within the three to five (5) modules in the alternative certification program (Transition to Teaching), strategies for differentiating the curriculum are embedded in each content area. Teacher candidates are taught strategies for working with students with disabilities and English language learners as they apply to curriculum and assessment within their lessons. The program is guided by the INTASC standards and the Indiana

REPA Educator Standards. Teacher candidates are required to align objectives with the Indiana Content Standards (includes College and Career Readiness) in assignments and lesson plans. In addition to coursework and assignments, proficiency assessment is determined through the Teacher Work Sample (TWS) during the student teaching semester. The TWS rubrics provide documentation of the teacher candidate’s ability to impact student learning in the classroom through understanding contextual factors, pre-post testing, analyzing data, and using data to inform teaching and learning for all students. The Transition to Teaching Program provides adults who are changing careers with approximately 50 hours of practicum and 475 hours of student teaching. Effort is made to place these teacher candidates in diverse settings with students of diverse backgrounds and abilities.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Alternative candidates are required to demonstrate standards-based technological proficiency in course projects and use technology/media appropriately and meaningfully for enhanced teaching and learning. The Transition to Teaching Program is committed to the use of educational technology to enhance the learning of all students. Teacher candidates in the program are required to demonstrate standards-based technological proficiency in course projects and assignments. A learning management system, CANVAS, is also used throughout the program. In addition, they must show proficiency in determining the appropriate technology/media to use in a lesson that will provide meaningful learning for each student. The ability to use technology effectively to collect, manage, and analyze data in order to impact student learning is embedded in the Teacher Work Sample (TWS) required during student teaching. Within the TWS, teacher candidates must set learning goals guided by contextual factors relative to the classroom environment. Goals must align with local, state, and national content standards. Based on these goals, a unit of study is designed and implemented for a 2-3 week period. Pre- and post-assessments are administered to determine student growth on each goal during the unit. Teacher candidates must examine their overall teaching and assessment results, reflect on the data, and determine the next steps. All of the data associated with the unit of study must be collected and stored in a data management system for final analysis in determining student growth. Teacher candidates are thus able to collect, analyze, and triangulate their data through their use of technology and document the impact of their teaching on their students. Technology plays an important role in the teacher candidate's ability to adjust teaching based on student data.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Strategies for differentiating the curriculum are embedded in each content area. Teacher candidates are taught strategies for working with students with disabilities as they apply to curriculum and assessment within their lessons. Strategies are introduced in the first course, EDUC 4200 Teaching as a Profession, and applied throughout subsequent coursework. Elementary candidates enroll in three courses emphasizing differentiated curriculum and instruction (Differentiated Curriculum and Instruction: Mathematics, Differentiated Curriculum and Instruction: STEM, Differentiated Curriculum and Instruction: Social Studies).

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Teacher candidates have extensive discussions and readings concerning special education and the general education teacher's responsibilities in special services, compliance with IEPs and participating in case conferences.

c. Effectively teach students who are limited English proficient.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The DTE is accredited by CAEP with no areas for improvement through December 2023. All of our candidates pass all state required tests and professional development requirements to complete our programs. Therefore, our completers have a 100% pass rate, making them eligible for licensure upon graduation. Faculty work diligently to prepare candidates for the responsibilities of a professional educator. The EPP was instructed by the Indiana Department of Education to remove candidates who switched majors during the 2018-2019 reporting period from the data collection worksheet submitted to Pearson. Title II trainers recommended keeping candidates who changed majors during the reporting period in the enrolled total count provided they participated in the program that year. The EPP contacted Pearson and Westat for further instructions to address this discrepancy. It was determined that the IDOE advice aligned with 2017-2018 Title II reporting instructions; however, 2018-2019 instructions redefined "enrolled student." The IDOE allowed the EPP to revise the data collection worksheet and resubmit on 5/27/20. Pass rates should be available in June. The completer pass rate should remain at 100% since there were no completers added to the data collection worksheet.
